LETTERS TO THE EDITOR

Farewell, Prof Dreyer

On behalf of Medpharm Publications and all the readers of SAJGO, I would like to thank Prof Greta Dreyer sincerely for her wonderful and much appreciated association with the Journal since its inception in 2009. Not only was she the instigator and founder of the Journal, but also the most loyal supporter in the form of article editing, motivating her colleagues to write and the planning of all the issues.

Prof Dreyer's hard work, dedication and perseverance is an example for all of us.

Thank you so much!

Prof Oppel B W Greeff

Consulting Editor: Medpharm Publications
